

Equipment

Once your character's stats and traits are finalized, it's time to equip them. Equipment slots are determined by the Species' Morphotype selected during species creation.

Characters begin with equipment only if they:

- Have the anatomical slot required.
- Possess a corresponding skill for the item.
- Sometimes items are granted through background.

Equipment Slot Reference Table

Slot	Granted By	Accepts Equipment
Trinkets	Automatic	Keychains, Baubles, Scrying Orbs
Head	Head, Head/Neck	Helmets
Horns	Horns	Horn Rings, Chains
Face	Head, Face	Veils, Jewelry, Glasses
Neck	Head/Neck	Necklaces, Chokers, Neckguards
Back	Cloak, Backpack, Artificial Wings	Cloaks, Backpacks
Torso	Any Torso	Vests, Armor
Waist	Any Torso	Belts, Holsters, Pouches, Bookleashes
Wings	Wings	Wing Rings, Circlets, Armor (if applicable)
Tail	Tail, Aquatic	Tail Rings
Legs	2-Legged, 4-Legged, Multi-Legged	Pants, Leg Armor
Feet	2-Legged, 4-Legged	Sandals, Anklets, Greaves
Hoof	2-Legged, 4-Legged	Horseshoes, Anklets
Shoulder	Arms, 4-Legged	Pauldrons
Arms	Arms	Sleeves, Arm Circlets, Tattoos
Wrists	Arms	Bracelets, Arm Guards
Palm	Hand	Gloves, Gauntlets
Fingers	Hand	Rings

Grip

Hand

Weapons, Shields, Tools, Books

As characters evolve, new traits may unlock more slots, enabling exotic or specialized equipment combinations.

Items are modular, supporting tiered growth through Rank 1–5. Weapon and armor stats scale by material and design. The Ranks on equipment are equal to the Skill they use. Weapons used without a skill are Rank 0 and always take 1 instead of rolling.

Equipment HP is set at time of crafting, as it is improved by the crafter. If a character using equipment for defense is damaged, the equipment takes that damage too, but reduced by the equipment DR.

Item DR = Damage Reduction to the item based on material. (See Materials Lists)

Equipment HP: The durability of the piece. Set when the piece is crafted based on crafter skill and material.

Equipment Weight (Wt): Based on material used. Used to calculate weight penalties.

Destroyed: At 0 HP the equipment is destroyed with 1/4th of base materials salvageable. Roll crafting DCs for rare item salvage.

Repairs: A skilled craftsman may repair items based on crafting DCs and Specializations.

~~~Optional~~~

**Sundered:** When equipment is below half its max HP it's attack or defense bonuses are reduced by half.

---

## Encumbrance

A character may lift and carry weight based on BDY Stat Ranks.

If over encumbered Move at /2 speed and make checks with a -1 SPT modifier (Min 0).

Equipment Weight affects AP:

Light load: 25% or less capacity. If carry load is light no Wt penalty.

Medium load: 25 to 50% capacity. If carry load is medium -1 Wt penalty

Heavy load: 50% to 75% capacity. If carry load is Heavy -3 Wt penalty.

Extreme load: 75% or more. If carry load is Extreme -5 Wt penalty

Over Encumbered: 100% or more. -10 Wt penalty.

| BDY | Small Carry | Small Lift | Medium Carry | Medium Lift | Large Carry | Large Lift | Huge Carry | Huge Lift |
|-----|-------------|------------|--------------|-------------|-------------|------------|------------|-----------|
| 1   | 50          | 100        | 100          | 200         | 150         | 300        | 200        | 400       |
| 2   | 100         | 200        | 200          | 400         | 300         | 600        | 400        | 800       |
| 3   | 150         | 300        | 300          | 600         | 450         | 900        | 600        | 1200      |
| 4   | 200         | 400        | 400          | 800         | 600         | 1200       | 800        | 1600      |
| 5   | 250         | 500        | 500          | 1000        | 750         | 1500       | 1000       | 2000      |

---

## Sample Equipment.

Characters do not buy weapon and armor ranks. Instead, weapon ranks are unlocked through the skill that grants the ability to equip them. Each rank provides new attacks or tactical options with that weapon type.

## Weapons

Each weapon follows a 5-rank structure. Ranks 1–3 generally unlock attacks (Throw, Slash, Stab, Bash, Shoot), while Ranks 4–5 provide enhanced effects, reduced costs, or special actions, so you can build your own in addition to these. In statistical format a weapon should appear similar to this:

### Weapon Name

#### *Material Used*

Weight: *Weight of materials*

HP: ((Material Density × 2) × Material Weight) + Crafting Success)

DR: ((Hardness × 2) + Ductility)

Rank1: Basic attack action or actions.

Rank2: Action

Rank3: Action, usually a power or AoE attack.

Rank4: Thematic Action or passive to boost lower Rank actions.

Rank5: Signature or Finishing Move, or a Strong Passive buff to other abilities.

A character may use a weapon with one hand if it's weight is less than 10% of their carry weight, and is considered light.

A character may use a weapon with two hands if it's weight is less than 20% of their carry weight, and is considered medium.

A character may use a weapon in both hands if combined weight is less than 15% of their carry weight.

When using a weapon in each hand a character may use both to attack and defend for standard AP for x 3 Resource cost (SP, MP, and/or HP)

This is a short list of weapons that may be commonly made for NPCs and the starting equipment for most characters. There is an extensive guide on item creation for crafting enthusiasts. Sample vendors with other Equipment will be given in Examples near the end of the book.

## Starter Weapon Examples

### Iron Dagger

#### *One-Handed*

Weight: 1.5 lb

Cost: 4 silver 50 Copper

HP: 10

DR: 14

Rank1: Stab: 2 AP, 1 SP: *Piercing*. +1 Damage on hit. Slash: 2 AP, 1 SP: *Slashing*.

Rank2: Throw: 1 AP, 1 SP: *Piercing*. +1 damage on hit.

Rank3: +1 SP when drawn.

Rank4: -1 SP cost for Dagger attacks.

Rank5: Multiple attack SP penalties do not apply to Dagger attacks.

---

## Armor

Each armor follows a 5-rank structure. Ranks 1–3 generally unlock additional defense (Block bonuses, Affinity Resistances, Additional DR) while Ranks 4–5 provide enhanced effects, reduced costs, or special actions, so you can build your own in addition to these.

---

### Headgear

R1: +R Arcane Affinity Resistance.  
R2: +1 AP during surprise rounds when aware.  
R3: +1 crit range on enemy head shots.  
R4:  
R5:

---

#### Chest Armor

Rank1: +R Slashing and Piercing DR, and +R/2 Bashing DR to character when equipped.  
Rank2:  
Rank3:  
Rank4:  
Rank5:

---

#### Arm & Hand Armor

R1: +R vs disarm  
R2:  
R3:  
R4:  
R5:

---

#### Leg & Foot Armor

R1:  
R2:  
R3:  
R4:  
R5:

---

#### Shields

Buckler — Light, Steel HP: 8 DR: 10  
R1:  
R2:  
R3:  
R4:  
R5:

---

#### Special Armor Variants

##### Robe of the Arcanist

R1:  
R2:  
R3:  
R4:  
R5:

##### Elemental Plate

R1:  
R2:  
R3:  
R4:

## Adventure Gear

Common tools, supplies, and utility kits used in exploration, survival, and travel. These items are often stored in pouches, backpacks, or attached to belts and provide passive or situational benefits.

## Basic Travel Gear

Backpack — Carries up to 10 standard items. May increase carry weight by +25%.

Waterskin — Holds 1 day of clean water. Needed for travel in dry regions.

Bedroll — Provides shelter and comfort for resting. Boosts HPR by +1 overnight.

Flint & Tinder — Used to start campfires. It takes 1 minute in dry conditions.

50ft Rope — Durable hemp or silk rope. Holds up to 500 lbs. May assist climbing checks.

Pitons (10) — Iron spikes for anchoring ropes or securing tents in stone or wood.

Torch — Burns for 1 hour. Illuminates 30 ft. May ignite objects.

Lantern (Oil) — Enclosed flame source. Burns for 6 hours per flask. May be shuttered.

## Utility Tools

Grappling Hook — Thrown or placed to catch ledges. Requires successful roll to anchor.

Climbing Kit — Includes gloves, boots, rope, and chalk. Grants +2 to climb checks.

Fishing Kit — Line, hook, bait. May be used to forage in water environments.

Lockpick Set — Tools for picking non-magical locks. Required for lockpicking attempts.

Trap Kit — Tools for crafting simple snares and traps. Adds +2 to trap setting.

Healer's Kit — Bandages, salves, herbs. Allows First Aid checks. 5 uses.

Tinker's Kit — Gears, tools, pliers. Used to repair mechanical gear.

Alchemy Kit — Small vials and burner. Required for basic potion mixing.

## Navigation & Knowledge

Map (Region) — Shows landmarks and safe paths. +2 to Navigation.

Compass — Always points north. Reduces chance of getting lost.

Notebook & Ink — Used to record observations, journal, or sketch.

Spyglass — Magnifies distant terrain. Spot hidden locations from far away.

Hourglass — Measures time precisely. Used for rituals or planning.

Tome or Reference Book — +1 to Knowledge or History checks if relevant.

## Alchemy Items

See crafting.

## Sample Starter Equipment Packages

*(Choose one package at character creation, or build your own using starting gold rules.)*

---

### 1. Light Scout Kit (for archers, rangers, rogues, fast movers)

Weapons:

- Shortbow + 20 arrows
- Light dagger (concealable)

Armor:

- Light leather jerkin (Torso slot)
- Bracers (Arms slot)
- Soft boots (Feet slot)

Gear:

- Backpack

- Rope (50 ft)
  - Waterskin
  - Basic rations (1 week)
  - Bedroll
  - Flint & steel
- 

## 2. Heavy Frontliner Kit (for tanks, melee brutes)

### Weapons:

- Longsword or Battleaxe (1-handed)
- Kite shield (Arm slot)

### Armor:

- Chainmail shirt (Torso slot)
- Greaves (Leg slot)
- Iron helm (Head slot)

### Gear:

- Belt pouch
  - Waterskin
  - Rations (1 week)
  - Whetstone
  - Torch (x3)
- 

## 3. Caster's Kit (for mages, druids, support casters)

### Weapons:

- Quarterstaff (doubles as walking stick)
- Ritual dagger (ceremonial)

### Armor:

- Robe (Torso slot)
- Hood (Head slot)
- Soft shoes or sandals (Feet slot)

### Gear:

- Spell component pouch
  - Satchel (scroll storage)
  - Journal + ink & quill
  - Waterskin
  - Bedroll
  - Rations (1 week)
- 

## 4. Skirmisher's Kit (for mobile fighters, hybrid roles)

### Weapons:

- Spear (1 or 2-handed)
- Light crossbow + 20 bolts

### Armor:

- Studded leather armor (Torso slot)
- Forearm guards (Arms slot)
- Boots (Feet slot)

### Gear:

- Rope (50 ft)
  - Grappling hook
  - Waterskin
  - Rations (1 week)
  - Bedroll
  - Oil flask (x2)
- 

## 5. Survivalist's Kit (for hunters, trackers, wilderness guides)

### Weapons:

- Hunting bow + 20 arrows

- Hatchet (also for woodcutting)

Armor:

- Fur-lined leather armor (Torso slot)
- Gloves (Hands slot)
- Weatherproof boots (Feet slot)

Gear:

- Waterskin
- Rations (2 weeks)
- Hunting trap (x2)
- Flint & steel
- Fishing kit
- Rope (50 ft)
