

Industrial Era Professions

Each entry includes the role, impact, magical relevance, and core skills associated with various professions in a fantasy-industrial world.

Arcane Engineer

Role: Designs proto-machines combining gears and arcane power.

Magic: Uses runes, mana conduits, and protective enchantments.

Impact: Drives industrial transformation and guild formation.

Skills:

- Mechanical Drafting
- Metal & Alloy Selection
- Arcane Conduit Integration
- Runic Safety Protocols
- Blueprint Design
- Cross-Trade Coordination
- Illusory Diagnostics
- Material Experimentation
- Risk Analysis

Rune Mechanic

Role: Embeds runes into machines for enhanced efficiency.

Magic: Increases precision, reduces wear via arcane circuits.

Impact: Bridges magic and manufacturing.

Skills:

- Rune Scripting
- Tool Precision
- Mana Regulation
- Industrial Layout Awareness
- Repetitive Scribing
- Fault Detection via Runes

Mana Furnace Operator

Role: Runs magical furnaces powered by mana crystals.

Magic: Controls arcane heat, prevents flare-ups.

Impact: Reduces reliance on coal and improves safety.

Skills:

- Furnace Control
- Mana Handling
- Emergency Procedures
- Arcane Heat Management
- Workshop Coordination
- Protective Warding

Golem Technician

Role: Crafts and maintains labor golems.

Magic: Uses animation spells and command runes.

Impact: Enables magical automation in heavy labor.

Skills:

- Golem Anatomy
- Enchantment Protocols
- Limb Repair

- Rune Fail-Safes
- Specialized Tool Installation
- Adaptive Command Logic

Aerial Courier / Balloonist

Role: Pilots balloons for mail and scouting.

Magic: Employs wind and stability enchantments.

Impact: Opens up sky routes and remote delivery.

Skills:

- Balloon Navigation
- Weather Lore
- Emergency Landings
- Minor Levitation Magic
- Sky Communication

Artificer's Apprentice

Role: Trains in fusing mechanics with basic magic.

Magic: Powers small devices with enchantments.

Impact: Forms the next generation of magitek tinkers.

Skills:

- Tool Proficiency
- Arcane Fundamentals
- Multidisciplinary Prototyping
- Scroll & Diagram Study
- Creative Debugging

Factory Overseer / Foreman

Role: Manages industrial labor and production.

Magic: Uses illusion boards and safety wards.

Impact: Keeps early factories functional and profitable.

Skills:

- Workforce Supervision
- Output Regulation
- Hazard Prevention
- Metric Illusions
- Payroll & Inventory Tracking
- Crisis Management

Railwright / Track-Layer

Role: Builds tracks for trains or arcane carts.

Magic: Embeds frictionless or protective runes in tracks.

Impact: Expands infrastructure for magical transit.

Skills:

- Track Construction
- Terrain Surveying
- Rail Forging
- Rune Embedding
- Crew Oversight

Arcane Loom Operator

Role: Weaves fabric using spell-assisted looms.

Magic: Enhances textiles with minor illusions.

Impact: Mass-produces enchanted or durable fabric.

Skills:

- Thread & Gear Calibration
- Enchanted Weaving
- Quality Assurance
- Maintenance of Mana Systems

Alchemical Gas Lamp Maker

Role: Builds mage lamps for industrial lighting.

Magic: Embeds glow crystals or uses gas-illusion fusion.

Impact: Extends working hours, enhances public safety.

Skills:

- Lamp Assembly
- Gas Chemistry
- Safe Installations
- Illusory Light Tuning
- Leak Detection

Steam Wright

Role: Constructs and repairs steam engines.

Magic: Integrates pressure wards and cooling illusions.

Impact: Powers machinery and mobility.

Skills:

- Boiler Assembly
- Valve & Piping Knowledge
- Arcane Overheat Prevention
- Fuel Efficiency Balancing

Clockwork Artificer

Role: Creates intricate mechanical and magical devices.

Magic: Imbues timing or sensory enchantments.

Impact: Introduces advanced timekeeping and novelty devices.

Skills:

- Fine Gear Assembly
- Magical Triggers
- Decorative Design
- Puzzle Automation

Rune-Press Operator

Role: Prints both mundane and arcane texts.

Magic: Sets runic type for mass-distributed enchantments.

Impact: Enables low-Rank spell distribution to the masses.

Skills:

- Press Control
- Runic Layout
- Ink & Paper Mastery
- Illusory Broadsheet Design

Balloon Marine / Airship Marine

Role: Defends aerial vehicles from threats.

Magic: Uses anti-fall charms and levitation.

Impact: Militarizes the skies.

Skills:

- Airborne Combat
- Ranged Defense
- Hull Repair
- Minor Levitation
- Sky Artillery Usage

Spell-Infused Librarian

Role: Maintains magical and industrial archives.

Magic: Uses illusions for research and protection.

Impact: Preserves and educates across eras.

Skills:

- Cataloging with Illusions
- Runic Book Warding
- Arcane Topic Familiarity
- Conservation Practices

Broadsheet Publisher

Role: Prints and distributes magical newspapers.

Magic: Embeds illusions in “living headlines.”

Impact: Shapes public opinion and tracks arcane trends.

Skills:

- Journalism
- Page Layout
- Illusory Printing
- Crier & Sales Coordination

Mana Candle Maker

Role: Crafts long-burning, magically-enhanced candles.

Magic: Adds ambient effects to wax.

Impact: Creates functional and mystical light sources.

Skills:

- Wax & Wick Mastery
- Color/Scent Integration
- Spellbase Molding
- Light Quality Tuning

Spell Courier / Telepathic Relay

Role: Sends short messages between relay stations.

Magic: Uses minor telepathy or illusions.

Impact: Creates magical proto-telegraphs.

Skills:

- Mind Focus
- Relay Synchronization
- Message Encryption
- Mana Restraint
- Mental Defense

City Planner / Arcane Surveyor

Role: Designs towns, roads, and magical layouts.

Magic: Scrying tools and illusionary maps.

Impact: Evolves infrastructure around magical stability.

Skills:

- Urban Mapping
- Water Management
- Illusion Visualization
- Arcane Flow Tracing

Guild Investigator / Inspector

Role: Enforces regulations and arcane safety.

Magic: Detects magical violations and sabotage.

Impact: Prevents abuse and promotes worker protection.

Skills:

- Industrial Auditing
- Magical Contraband Detection
- Testimony Gathering
- Citation Filing
- Guild Mediation
